FOREWORD

Sabine As we depart from this friendly atmosphere of learning, let us
carry this yearbook as an everlasting treasure of our memories of
Shamrock High.

As we look back we will appreciate the years of dedicated ser-
vice the teachers have rendered for our future success.

We, the annual staff, do sincerely hope that this yearbook will
serve in the future as a permanent record of our joys and sorrows,
hopes and fears, failures and successes.

The board of trustees works toward providing a school system for the continuous development of the student so he may become a good citizen of our society.

Shamrock teachers were honored by the board at a Teacher-Appreciation banquet, May 15, 1958. Service pins were awarded to teachers of five or more years of service in Shamrock.

Banquet served by Home Ec. girls.

CLASSES

Second period algebra class finding unknowns.

Plane geometry class works with triangles.

Working with complex fractions.

Constructing a geometric design.

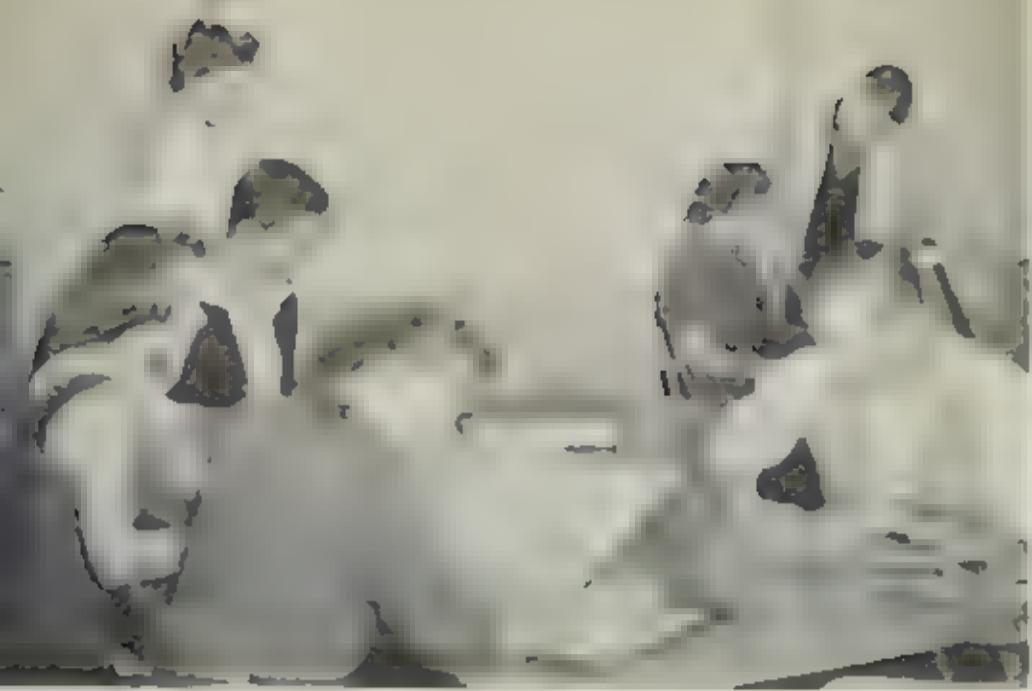

Digging for themselves.

Mathemtics

Algebra must be looked at and understood as a language. The ability to use a rich and an exact language is one of the highest attainments of culture and one of the most desirable attributes of an educated mind. As a language algebra is a highly condensed language. It is a language stripped down to essentials where all extraneous matters are absent.

"The laws of nature are but Mathematical thoughts of God."

Seniors writing on research themes.

Juniors studying American Literature.

English

The Junior and Senior English subjects are enjoying an integrated program of literature, composition, and grammar. Although this is the first year of the program, the students find that it provides interest and variety in class work.

The Reader's Digest is used in Sophomore, Junior, and Senior classes to increase competence in reading and spelling. Freshmen use the Practical English magazine for speed reading and comprehension.

Sophomores silently reading Literature.

Freshmen diagramming sentences.

Freshmen studying Practical English.

Social Studies

Civics class reviewing American government.

In order to gain a better understanding of the foreign nations we study World History.

In social studies our main interest is in keeping foreign relations at its best and learning how to do so in the future.

We learn the laws of this country and how they were meant to be interpreted.

This class in deep study of something very interesting.

American History class studying in their workbooks.

Commercial

Second period typing class.

First period typing class.

Commercial work trains the student to become proficient in handling the basic business skills; daily recording, typing, shorthand and bookkeeping.

A student may successfully apply what he has learned after graduation.

Commercial Math Class.

Shorthand Class.

Bookkeeping Class

Physics class studies 4-cylinder engine.

Chemistry class makes hydrogen chloride.

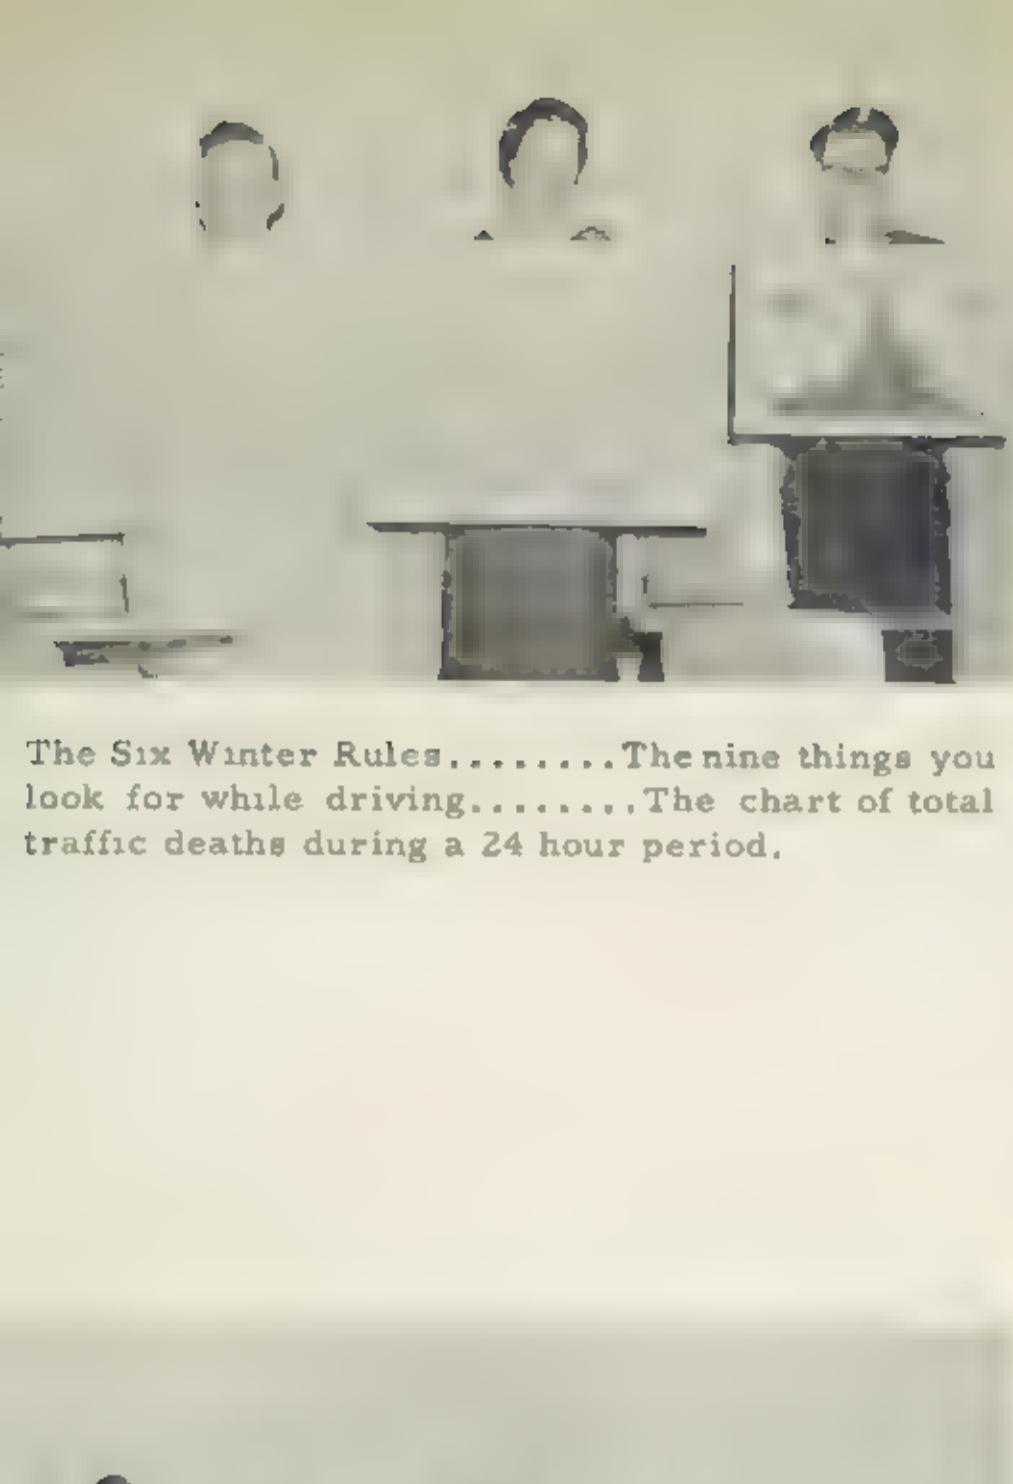

Biology class examines "Herman."

Physics class demonstrates coefficient of expansion.

General Science class studies flame.

Driver's Education

High school courses can provide the most favorable opportunity for youths to acquire the knowledge, skills, and attitudes needed for safe driving. The instruction set-up of greatest promise is a two-part drivers education course. Around such a practical two-part system, "Spartmanlike Driving" course is built.

It is made up of:

1. Classroom teaching
2. Supervised road practice.

Both parts of the course are regularly scheduled in school curriculum.

In classroom work youth drivers learn:
What makes the good driver.
Traffic laws and the reasons for them.
The serious personal and social
responsibilities of driving.

The elementary principles of how a car
runs.

How to keep the car in good condition.
How to protect and to be good pedestrians.
Stopping distances at various speeds.

Vocational possibilities in driving.

Five "right-of-way" rules

Five important road signs

The Latin class reads about the "Harpies."

The famous "vocabulary line."

Latin II students read stories on different phases of the culture of the Greek and Roman nations. A great deal of reference reading is done to provide background for studying languages and to appreciate our debt to these famous people. Emphasis placed on a thorough understanding of syntax and vocabulary. In the second semester the class translates Caesar's Gallic Wars. Research is done on Caesar's life and all aspects of history related to this story.

FOREIGN LANGUAGE

The Spanish I class tries to master a reading and speaking vocabulary and to learn the basic grammatical forms. Cultural material is studied both from the historical and the modern viewpoint. The importance of friendly relations with our neighbors of this hemisphere is emphasized.

Our crown performance "Siempre Una Vaca."

We won't forget Mary Kay.

The officers of the Library Club. President--June Griffen; Secretary-Treasurer--Margie Sanderson; Reporter--Carolyn Barcafarr.

The Library Club members

Library and Study Hall

The library is shelved with many good and interesting books, such as Fiction, Biography, History, etc. There is a verticle file, a shelf file, a card catalogue, and a complete section of reference books. The library is being improved more every year.

Study Hall is an hour period set aside in every student's schedule for their benefit, to use for getting their outside work and class assignments.

Studying in Study Hall.

Making use of the periodicals.

P.E. girls build a pyramid.

Girls get set to do front-rows.

P.E. Class

The girls' P.E. class meets the fifth period; the boys' class, the second period. In these classes the students learn the fundamentals of many different games. Emphasis is placed upon developing body skills, such as: agility, balance, and reaction. This year the girls were introduced to elementary tumbling for the first time. The boys have been working on individual skills in tumbling and acrobatics.

The "Rocking-Chair" for building leg muscle.

Boys try "back-ward" flips.

Coach grades back-ward "air flips."

News in Brief

One of the Red Letter Days for S.H.S. this year was April 7, when we were hosts to the other High Schools of the County with Career Clinic. Leaders from many businesses and professions were here and discussed qualifications and training needed in the occupation in which we were interested. They also reviewed opportunities in their chosen field. It was a worthwhile activity and each student was enlightened in regard to their future vocation.

National Library Week (April 12-16), was observed in Shamrock High School. An attractive book display was on exhibit in the Library. At a special assembly the student body attended a Book Review. Pins were presented to members of the Library Club for services rendered during the School year.

Mother and Daughter Banquet was held in April in the school cafeteria.

The area meeting for F.H.A. was held March 7 at Amarillo. Next year it will be held in Lubbock.

FOOTBALL QUEEN CROWNED

During the half of the Shamrock-
Childress game, Miss Verlene Tinkler
was crowned football queen for 1958
at "Autumn Fling" and the
queen had a toothy smile. Cheered
Huberta Blake, Frances O'Gorman, Betty
Jolly, and Sharon LeBlanc made an appearance
for the queen. Her attendants to walk
through. As Queen and her attendants
arrived in a purple, velvet convertible
the captains, Joe Jernigan & H. T. Tuck
and Charles Tylor, escorted the queen and
her attendants to the stage. Emma Jean McMullan
and Kathy Luman were the girls
who presented Queen. Queen was
crowned 27th year in the history of
the school.

Evalina, wake up. I'm
about to faint!

In the waiting room of a small, wayside railroad station the passengers, because of a train derailment are thrown into pandemonium when Mrs. Vanderventer discovers her \$10,000 string of pearls is missing. Miss Pidgie locates them in a most unexpected place...the lunch basket of Mrs. Guarino. Prospective lawyer, Bill, announces he is going to hold a preliminary trial and appoints judge, jury....In a clever way, he clears Mrs. Guarino and exposes the guilty person. Miss Pidgie discovers the contents of the mysterious suitcase, much to her regret. Then Silas rushes on and announces the relief train is coming. Everybody rushes out pell mell.

Looks like she's enjoying it.

One...two...a cent!

Pardon my seeming curiosity.

Cheramy Tisdal Make-up

Tommy, a schoolboy, thinks he is a writer. He writes a story with the same title as the one his Pulitzer-Prize winning uncle. His uncle comes to visit and has his mail sent there.

Two weeks later a letter comes and has a \$500 check in it. Tommy thinks it's his because his uncle and he have the same name. Tommy throws a big party and finds out too late that the money isn't his.

His girl friend gets him out of the jam and everything ends well.

FTA

The FTA consists of students who desire to become teachers. At the end of the year all students who have met all requirements receive pins. FTA has high membership requirements which it strives to maintain. Many useful projects are carried on by the club. We have twenty-eight members, most have been members for two or three years.

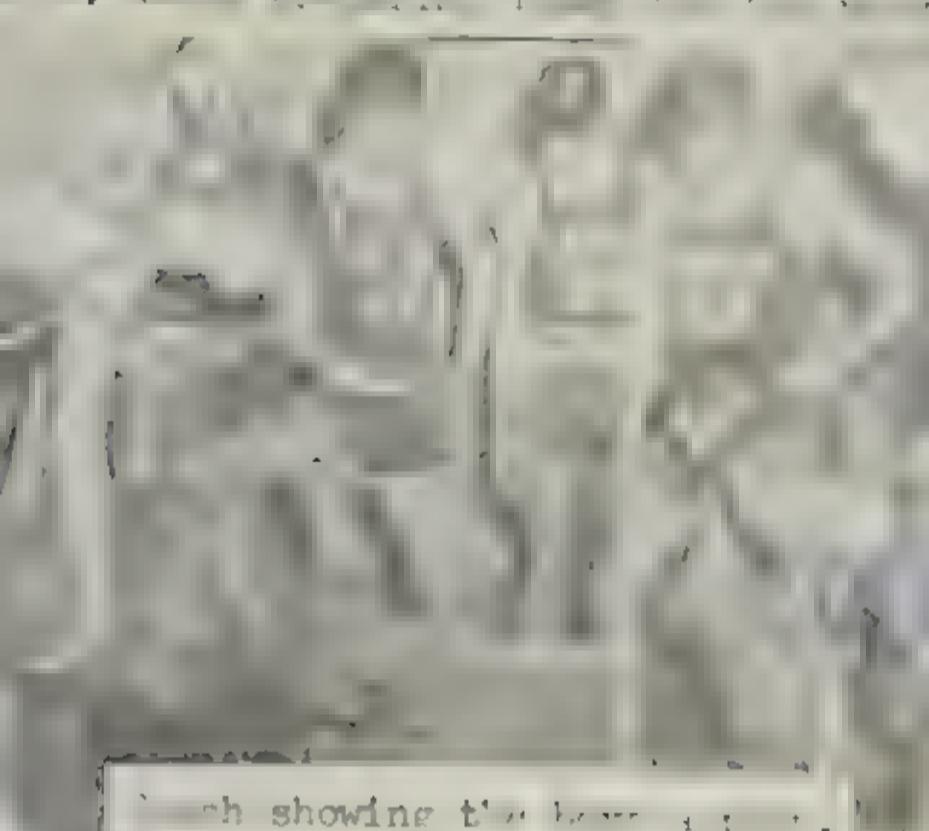

Installation of Officers

FTA Members

In an impressive installation, the officers of the FTA for the school year 1958-'59 were installed.

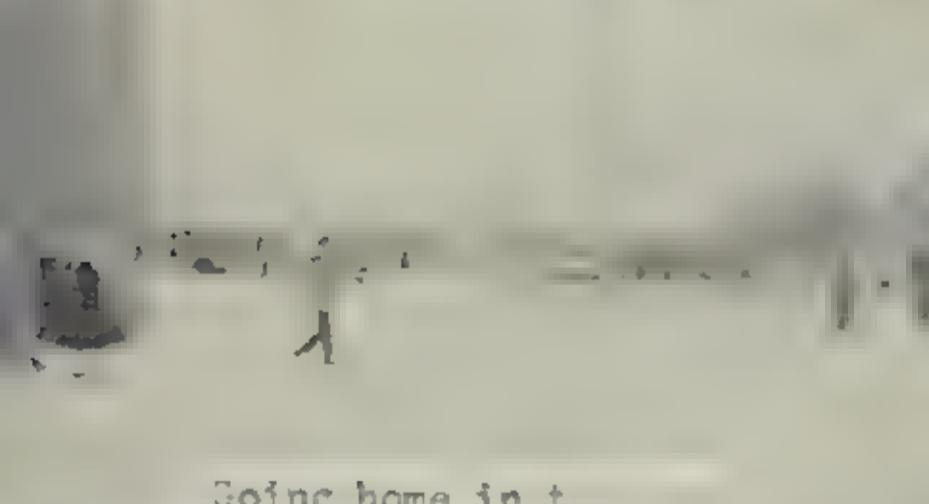

Mrs. Oneta Barrett, president of the local classroom teacher's organization, was the installing officer. She gave a very impressive talk on "The Enjoyment of Teaching."

The season closed with a winning of four and losing of three games. The boys in all the games they lost never gave up and showed a lot of hustle. The Junior High team will lose a total of 15 boys this year. At the end of the season the sixth grade had a workout with 30 boys coming out.

The last week of the season, Shamrock's sixth grade played Wheeler's sixth grade. The "Little Irish" were defeated by a score of 12-8.
